

ZEUS EXTREME

Air Movers

PRODUCT DESCRIPTION

The Zeus Extreme Axial Fan is the most versatile air mover available. The patent pending "FUSION ENERGY" technology, revolutionises evaporative drying by introducing higher air velocity. Water evaporates more quickly from the carpet, pad, sub-floor, wall and sill plate, shortening drying time. Wherever adverse environments pose a threat to health, safety and efficiency, this unit can be used in one of three ways to improve air quality. COOLING: By introducing a constant flow of fresh air, it ensures the hottest areas become cool and comfortable, drying the air and controlling humidity. VENTILATION: The lack of oxygen in the crowded or poorly ventilated rooms can caused rowsiness, danger in machinery operations and hazardous problems to health. The unit ensures a constant supply of air rich in oxygen. EXTRACTION: The accumulation of contaminated air can be a risk to health and safety in areas where fumes, dust or unpleasant smells spread wildly. This unit has the power to draw in huge amounts of contaminated air through its heavy duty, non-collapsible flexible ducting.

Standard Features

- SAACertification
- Stackable with units interlock
- Power on indicator light
- Chain up units
- Low noise, quiet operation
- Duct at inlet and outlet
- GFCI Protection for wet applications
- Circuit breaker protection
- Over 3000 CFM
- 6 m AC cord with cord management
- Maintenance free bearing motor
- Automatic hour meter display
- Light weight and compact
- Washable housing

Specifications

• Power	220V/240V, 50Hz
• Current	1.4 A (high speed)
• Drive Motor	1/3 HP 1-phase
	VAC 2-speed 4-pole
	PSC Electric Motor
• Control	On/Off with variable speed
• Air Flow	3000 CFM (approximately)
• Sound Pressure Level	<70 dBA
• Cord	6 m Power Cord
• Weight	18 kg
• Dimension (L×W×H)	55 cm × 42 cm × 54 cm

Installation

- Stackable units
- 6 positions versatility

Commercial Applications

- Restoration Works
- Confined Areas
- Crawlspace & Basements
- Electric, Gas, Water Utilities
- Fire Departments
- Manholes
- Municipalities
- Mines & Shafts
- Tunnels
- Tank Cleaning
- Telephone Crews
- Welding Booths
- Storage Areas
- Vault Cleaning
- Garages
